Faculty of European Studies and Regional Development - News Reader

Faculty of European Studies and Regional Development successful in project activities

20.10.2020 15:12 by Veronika Strásovská (newsitems: 2)

The Faculty of European Studies and Regional Development can consider the year 2020 to be one of the most successful years regarding its project activities. The faculty used its experience in the field of international cooperation and project implementation and created international consortia, which prepared several interesting project plans. In 2020, international educational and research projects were approved for financing.

The first successful project is a project within the HORIZONT 2020 programme titled Inclusive health and wellbeing in small and medium sized cities - IN-HABIT, University of Córdoba. A total of 21 institutions from Spain, Italy, Lithuania, UK, ... are cooperating on the project. The project will use innovative approaches to ... implemented in cooperation with the Faculty of Horticulture and Landscape Signage ... project is Ing. Katarína Heličková, PhD. from the Department of Regional Studies ...

FESEDD employees also have a great deal of credit for ... within the framework of the Regional Sustainability: European Universities Alliance - RUEST ... The project coordinator is prof. Ing. Pavol Schwarz, PhD. from the Department of European Policies.

Another successful project is the project titled Youth and their Future in the Light of the Common Agricultural Policy - SOFCAR, solved within the tender of the European Commission INCAR. The project is implemented in cooperation with the Faculty of Agronomy and Food Resources. The project coordinator is prof. Ing. Pavol Schwarz, PhD. from the Department of European Policies.

As part of Jean Monnet's activities, the Faculty was also successful in having two projects approved for financing, namely the project "Quality Salt as a Pathway to Healthy Food in the EU (GOODS)", which aims to stimulate discussion on the sustainability of salt quality in relation to food security. The project will be implemented in cooperation with the Faculty of Agronomy and Food Resources. The project coordinator is prof. JUDr. Anna Banderová, PhD. from the Department of Law. The second project under this grant scheme is the EU Law on Sustainable and Climate-Resilient Agriculture project after the European Green Deal - SUSFARM, coordinated by the Sant'Anna School of Advanced Studies, Pisa, Italy. The project aims to spread knowledge about legislation related to sustainable agriculture through several types of educational activities and events. The project involves prominent experts from Greece, Great Britain and Cyprus. For our faculty it is prof. JUDr. Anna Banderová, PhD. and doc. JUDr. Lucia Pálková, PhD.

The faculty also managed to obtain a project within the Strategic Partnerships call for proposals - "Sociability Through Urban Design Innovation- STUB.ID" - coordinated by the Unione degli Assessorati from Italy. The project will involve universities with the third sector from Italy, Spain, Romania and Slovakia. The local coordinator of the project is doc. JUDr. Lucia Pálková, PhD. from the Department of Law.

A lot of work awaits the faculty in the implementation of the above mentioned projects, but we believe that the achieved results will significantly contribute to improvement of the quality of research and education!

FEŠRR ide karta 🙌
 Rok 2020 môže Fakulta európskych štúdií a regionálneho rozvoja považovať za jeden z najúspešnejších v rámci svojej projektovej činnosti. Fakulta zúročila skúsenosti z oblasti zahraničnej spolupráce a realizácie projektov a vytvorila medzinárodné konzorciá, ktoré pripravili viaceré zaujímavé projektové zámery. Aj vďaka práci pedagógov z katedrií a zamestnancov Centra medzinárodných programov FEŠRR bolo v roku 2020 schválených viacero úspešných medzinárodných vzdelávacích a výskumných projektov.
